ANNOTATIONS OF ARTICLES ON ENGLISH LANGUAGE

PHILOLOGY

P. 7. Achpasheva N.M. ABOUT THE POSSIBILITY OF THE BELLES-LETTRES TRANSLATION'S PRESCRIPTIVE ANALYSIS. The theme of the article is conditioned by methodological problems of translation's science, which become apparent during the handling of the belles-lettres translation and hamper the objectiveness of its appraisal. In this connection, proceeding from the belonging of the foreign literature in translation to the sphere of verbal art, the author considers the practical meaning of the use of literary criticism's historical-comparative analytical principles in the research of the belles-lettres translation.

P. 10. Zorina Yu.V. STRUCTURAL PECULIARITIES OF ENGLISH TERMINOLOGY OF PUBLIC AND OCCUPATIONAL SAFETY. The article describes the most effective ways of term formation in english terminology of public and occupational safety.

P. 12. Zyryanova O.N. THE BODY AS A FUNCTION OF THE ABSURD NARRATIVE IN «THE OLD WOMAN» BY D. KHARMS. The article deals with the the interpretation of D. Kharm's story «The Old Woman» through the absurdity poetics which creates «the sum of practically independent monotopics». We can find out and describe some of such microtopics: the real topic (the storyteller and the old woman), the symbolic topic embodying the metaphor of a human soul immortality, and the self-referential micro-topic about «The Old Woman» creation story.

P. 16. Nikitina M.Y. CATEGORY OF LIMIT / UNLIMIT OF VERBAL ACTIVITY AND THE FRENCH SYSTEM OF ASPECT AND TENSE (ON THE MATERIAL OF VERBS OF MOVEMENT). The universal category of limit / unlimit of verbal activity and the classification of french verbs of movement are regarded in this article. The limit is supposed as a critical point associated with qualitative change in the proceed action. The limit / unlimit character of the verb is influenced by the morphological elements of aspect and tense.

PHILOSOPHY, SOCIAL AND POLITICAL SCIENCES

P. 20. Andreeva P.V. MORAL BASES OF A SCIENCE IN HISTORICAL PROSPECT. One considers dynamics of moral bases of scientific cognition in western culture. It is shown, that change of ideals of scientific character are connected to reconsideration of the moral bases of scientific activity according to features of each historical epoch.

P. 23. Garbuzov D.V. ANTHROPOLOGICAL FOUNDATIONS OF TRANSCENDENTAL SUBJECTIVISM OF THE PSYCHOANALYTIC TEMPOROLOGY OF J. LACAN. The article is about the analysis of the temporological conception of well-known French philosopher and psychoanalyst J. Lacan. Lacan works out the criticism of the subject of psychic phenomenons from the position of transcendentalism and intersubjectivism. For this he considers the man's being in the complex context of its inclusion into relations between the real, symbolic, and imaginable. In the author's opinion of the article, such approach allowed Lacan to overcome the limitation of the subjective understanding of the time and to come nearer to the working out of the whole anthropological conception of temporology.

P. 30. Morosova N.I. ANALYSIS OF CRIMINOLOGICAL SITUATION CONCERNED THE ILLEGAL SPREADING OF NARCOTIC. In the article the data analysis of criminal statistics in the Kemerovskaya oblast is presented. It lets describe the situation connected with the illegal circulation of drugs as threatening.

P. 35. Savin A.E. ABOUT CONCEPT OF TRANSCENDENTAL PHILOSOPHY AT HUSSERL AND KANT. In this article concept of transcendental philosophy is considered. Sources of its attractiveness for the modern thought are revealed. Basic interpretations of transcendentalism are picked out. Similarity and difference between Kant’s and Husserl’s versions of transcendental philosophy is demonstrated. Foundations of Husserl’s criticism of Kant’s philosophy are investigated.

P. 39. Smirnov S.A. THE WORLDVIEW INTERDEPENDENCE OF THE SCIENTIFIC AND RELIGIOUS COGNITION. Historically the cognition developed in a way that the science and the religion appeared spitted up due to their own peculiarities, specific features of the studied objects, and the distinctness of the reflection style. Therewith the humans always were always eager to obtain the whole and single worldview. At present not only the necessity became particularly sharp, but the possibility appeared of the significant rapprochement between the religion and science. Completing one another the science and the religion make real the understanding of the interconnection and interdependence of all.

CULTUROLOGY

P. 44. Dashieva L.D. SEMANTIC OF THE BURYAT CIRCULAR DANCE «YOKHOR».
