

Checklist

verifying the volume and proper attribution of borrowed material using “Antiplagiat.Vuz” system

Научная
библиотека
Томского
государственного
университета

- ☐ Clarify with your thesis supervisor the required percentage of text originality for your faculty
- ☐ Carefully review the text of your thesis: ensure all quotations are properly formatted and enclosed in quotation marks.
The «Antiplagiat» algorithm only recognizes a **quotation as correct if it is placed in quotation marks with the source cited immediately after the closing quotation mark**
- ☐ Submit the text in **.docx**, **.rtf**, or **.pdf** format to the responsible staff member, thesis supervisor, or a librarian at the Research Commons of the TSU Research Library. For checking the document in the Research Commons, bring it on a USB flash drive (not on a phone!!!) or save in advance in the Shared Folder of the TSU Research Library, accessible from any reader's computer in the library
- ☐ Save the plagiarism check report in **.pdf** format
- ☐ Show the report to your thesis supervisor
- ☐ After receiving approval from your thesis supervisor, combine the report (or the first page of the report) with the thesis text and a scanned copy of the title page with signatures
- ☐ [Upload the thesis to the TSU E-library](#)
